Course dates & booking	www.integralskills.com.au

Introduction

Integral Skills is a Registered Training Organisation (RTO Number 45528) who deliver a range or Nationally Recognised training, including RIIWHS204E Work Safely at heights and CPCCCM2010B Work safely at heights.

Course Description

This course provides learners with the skills and knowledge required to work safely at heights. This course is designed to meet the requirements from the Resources and Infrastructure Industries training package, RII.

All personnel who have to work at any height should have the knowledge to make informed decisions on hazards, techniques and equipment. The learners will understand how to identify industry requirements, work procedures and instructions. Additionally, learners will be able to access and install height safety equipment safely, perform their heights work safely including cleaning up their work area when the tasks are completed.

This course is essential for people who are required to work at heights in the course of their employment.

Course Topics

- Identifying work requirements including WHS legislation.
- Following company procedures.
- Accessing and installing height safety related equipment.
- Risk assessment and hazard control strategies.
- Performing working at heights.

Assessment

Students will be assessed by demonstrating procedures applicable to this unit. They will also be required to answer a number of written questions regarding their actions and theoretical application of knowledge. The assessment may be part of a simulated activity set by the assessor. This assessment must be completed in the workplace or in another environment that accurately simulates the workplace. The assessor is to actively set tasks for the student and must observe these tasks being performed.

To standardise the application of this assessment, the assessment tasks (performance evidence) are based on those specified in the Unit of Competencies, in the RII and CPC Training Packages. Assessors will apply an assessment procedure to ensure you are ready for the assessment and have the right resources and equipment to achieve the right outcome.

Course Materials

Learner training is supported through the provision of quality learning materials and resources.

Course Conduct

On arriving, learners will complete any outstanding enrolment administration and then participate in group learning activities about the theory of working safely at heights. After lunch we finish off our theory component and then put what is learnt into practice via our practical component. There is sufficient time over the day for additional one-on-one training for those requiring it. At Integral Skills we provide a friendly and supported environment to learn and achieve.

Work safely at heights

Entry Requirements

- Photo Identification is required to be sighted prior to course commencement.
- Language, literacy and numeracy skills required to interpret legislative requirements and to undertake written and practical assessment activities.

Clothing Requirement

Where a learner does not wear covered shoes they will not be able to participate in the course due to work health and safety concerns.

Fees and Charges

Additional information about fees and charges is provided in the Schedule of Fees and Charges which will have been included in your pre-enrolment information package. Please refer to the Schedule of Fees and Charges as it contains important information about related charges and our refund policy.

Confirmations

A learner's position on the course will only be confirmed upon a completed enrolment form and the payment of your course cost.

Numbers are limited, so confirmed enrolments will only be able to attend.

Duty of Care

Integral Skills adopts high standards in duty of care of its learners and instructors. Integral Skills reserves the right to turn anyone away that seems to be under the influence of drugs or alcohol. This action is to ensure that the learner and instructors' safety is assured and that Integral Skills maintains an incident free learning environment and complies with our duty of care responsibilities.

Integral Skills is responsible for the quality and delivery of training and assessment and will be the organisation issuing any qualifications and statements of attainment to eligible students

This document must be read in conjunction with the Learner Handbook, Schedule of Fees & Charges and USI Fact Sheet.
