Introduction

Integral Skills is a Registered Training Organisation (RTO ID 45528) who deliver a range of Nationally Recognised training, including CPC30920 Certificate III in Scaffolding.

Qualification Description

This qualification provides a trade outcome in scaffolding operations in the residential and commercial construction industry.

Our qualification is different from many offered in the market place. In packaging the elective units we have included those skills that we see as essential for a scaffolder operating at the intermediate level and also favoured by employers, comprising of many High Risk Work Licence activities which will assist you in completing your day to day activities. These also provide pathways into many other roles within the construction industry.

Qualification Packaging

CPC30920 Certificate III in Scaffolding consists of 14 units in total, 10 core and 4 elective as listed below:

Core Units

- CPCCCM2006 Apply basic levelling procedures
- CPCCOM1012 Work effectively and sustainably in the construction industry
- CPCCOM1013 Plan and organise work
- CPCCOM1014 Conduct workplace communication
- CPCCOM1015 Carry out measurements and calculations
- CPCCOM2001 Read and interpret plans and specifications
- CPCCWHS2001 Apply WHS requirements, policies and procedures in the construction industry
- CPCCSC2001 Handle and position scaffolding tools, equipment and components
- CPCCLSF2001 Licence to erect, alter and dismantle scaffolding basic level
- CPCCLSF3001 Licence to erect, alter and dismantle scaffolding intermediate level

Elective Units

- CPCCCM2012 Work safely at heights
- CPCCCM3001 Operate elevated work platforms up to 11 metres
- CPCCLDG3001 Licence to perform dogging
- TLILIC0003 Licence to operate a forklift truck

Additional Units

Due to the method of delivery and the way in which our learning resources have been developed, some of the units have been clustered with other alike units of competency in the construction and mining industries. At no additional cost or increase in training time you will also receive the following three units of competency:

- RIIHAN301E Operate elevating work platform
- RIIWHS204E Work safely at heights
- TLILIC0005 Licence to operate a boom-type elevating work platform (boom length 11 metres or more)

Assessment

The majority of the units of competency will be assessed individually and one holistically while completing other units within the qualification. Students will be assessed by demonstrating the applicable performance and will also be required to answer a number of written questions regarding their actions and theoretical application of knowledge. Assessments will be completed in the workplace or in another environment that accurately simulates the workplace. The assessor will actively set tasks for the student and observe these tasks being performed.

To standardise the application of this qualification, the assessment tasks (performance evidence) are based on those specified in the individual units within the Qualification, CPC30920 Certificate III in Scaffolding. Assessors will apply an assessment procedure to ensure you are ready for the assessment and have the right resources and equipment to achieve the right outcome.

Course Materials

Learner training is supported through the provision of quality learning materials and resources.

Course Conduct

The duration for the course is 320hrs which typically can be completed in 12-24months.

Many of the units are completed as standalone which aids in the scheduling and means that you are able to use the individual skills in your workplace as you attain them i.e. Forklift, Dogging etc. Other units are completed via self-paced learning with mentoring from the workplace.

Entry Requirements

As many of the units of competency are associated with a High Risk Work Licence, there are specific requirements which must be met. The individual standalone course brochures provide for more detailed information on specific requirements. Common requirements are:

- Learners must be aged 18 years or older
- Photo Identification is required to be sighted prior to course commencement
- Language, literacy and numeracy skills required to interpret work instructions, equipment operating instructions and to complete a written hazard / risk assessment and record work outcomes

Clothing Requirement

- Learners must be dressed in their normal work clothing (high Vis) and be wearing safety toe footwear
- Learners must be alert and physically capable of driving safely

Fees and Charges

Additional information about fees and charges is provided in the Schedule of Fees and Charges which will have been included in your pre-enrolment information package.

Please refer to the Schedule of Fees and Charges as it contains important information about related charges and our refund policy.

Confirmations

A learner's position on the qualification will only be confirmed upon a completed enrolment form and the payment of your course cost.

Numbers are limited, so confirmed enrolments will only be able to attend.

Duty of Care

Integral Skills adopts high standards in duty of care of its learners and instructors. Integral Skills reserves the right to turn anyone away that seems to be under the influence of drugs or alcohol. This action is to ensure that the learner and instructors' safety is assured and that Integral Skills maintains an incident free learning environment and complies with our duty of care responsibilities.

Integral Skills is responsible for the quality and delivery of training and assessment and will be the organisation issuing any qualifications and statements of attainment to eligible students

This document must be read in conjunction with the Learner Handbook, Schedule of Fees & Charges and USI Fact Sheet.
